

The WOODNAT project consists of 9 participants from 5 different European countries – Spain, Italy, France, Bulgaria and Romania, covering the Southern arch of Europe. Participants were recruited based on their capabilities, knowledge and complementary skills and how these will be useful to achieve Woodnat objectives. In line with the type of action (IA, Innovation Action) 8 out of 9 are industrial partners, capable of transferring to the market the results of WOODNAT project

STATISTICS / COMMUNICATION

JULY 3, 2018

WALE is on charge of Woodnat's Website. From the beginning of Woodnat project 54 e-news have been published on www.woodnat.eu Website. More than 6.000 visitors coming from 50 different countries already read our works.

We expect **48 news** per year; this is one per week except holydays.

To develop our visibility, we could you use our nice logo in our e-mail signature linked to Woodnat website :

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 728086

The WOODNAT project consists of 9 participants from 5 different European countries – Spain, Italy, France, Bulgaria and Romania, covering the Southern arch of Europe. Participants were recruited based on their capabilities, knowledge and complementary skills and how these will be useful to achieve Woodnat objectives. In line with the type of action (IA, Innovation Action) 8 out of 9 are industrial partners, capable of transferring to the market the results of WOODNAT project

This part gives an idea on the subjects treated by the different partners through the e-news published those last months :

2ND QUARTER 17

170724 - Third General Assembly of Woodnat - Mantova - Italy

170816 - WALNUT & ART

3RD QUARTER 17

170913 - Inspection for health evaluation of walnut trees in some plantation of Woodnat project

170913 - Brochure launching

170930 - WOODNAT coordinator at Cidade da Cultura

171005 - BOSQUES NATURALES within the AFINET Project

170925 - WOODNAT at A Estrada fair

4TH QUARTER 17

171005 - Sustainable handbags by WOODNA

171024 - Brussels meeting

171111 - Industry & Meeting

171111 - We are smarter together

171112 - Wall panels for small dimensions : an opportunity for plantation Walnut

171117 - Carrefour du Bois - Nantes - The Trade Show N° 15 is all about renewal!

171201 - WOODNAT 4.0

171207 - Madrid meeting between Seistag and BN

171211 - SISEF Congress

171218 - Meeting of coordinators

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 728086

1ST QUARTER 18

- 180112 - Woodnat on Researchgate by WALE
- 180120 - MOM trade fair Paris 2018 by WALE
- 180123 - TV in Galicia by Bosques Naturales
- 180201 - Meeting of coordinators by Seistag
- 180202 - New plants by Bosques Naturales
- 180214 - Fimma fair by Seistag
- 180221 - Woodnat 4th GA Madrid by SEISTAG
- 180223 - GIS WALTUN PLANTATION DATABASE IN PLACE by CREA
- 180226 - CO-WORKING FORESTAL by SEISTAG
- 180301 - Wale and Woodnat by Wale
- 180302 - Physico-mechanical tests on walnut lamellas by CREA
- 180306 - Establishing new commercial plant by Bosques Naturales
- 180312 - Quantitative data on veneer production by LOSAN
- 180319 - The induction of intense axillary shoot proliferation in walnut clone D15 by Industrial Plants by Industrial Plants
- 180320 - Veneer handling system by Asimov
- 180321 - ECM first steps in Stumps Biological Degradation by *Pleurotus ostreatus* in walnut plantations by ECM

2ND QUARTER 18

- 180401 - Poster by WALE
- 180402 - Flyer by WALE
- 180403 - WOODNAT gets 4.0 by Losan
- 180418 - Poster and Flyer by Seistag
- 180423 - European walnut thin veneer by Losan

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 728086
